COMETSTONE

Coordinating Floor and Wall Tile

COMETSTONE is a porcelain stone ideal for commercial and residential environments, where it brings the timeless color palette and texture of Durango stone on a high-tech, maintenance-free porcelain body. The revolutionary technological innovations incorporated into this product guarantee a perfect reproduction of the natural stone look and make the tile well suited to a wide range of conditions of use. The extensive selection of special pieces and different sizes enables the architect, interior designer and remodeler to create countless different layouts, also in combination with natural stone.
