

COMETSTONE
GLAZED PORCELAIN STONEWARE

SUN FLASH RS

COMETSTONE is a “porcelain stone” ideal for commercial and residential environments, where it brings the timeless color palette and texture of Durango stone on a high-tech, maintenance-free porcelain body.

GREEN VALLEY VE

The revolutionary technological innovations incorporated into this product guarantee a perfect reproduction of the natural stone look and make the tile well suited to a wide range of conditions of use.

The extensive selection of special pieces and different sizes enables the architect, interior designer and remodeler to create countless different layouts, also in combination with natural stone.

Shade variations

The color shade or shades of all tiles varies to some degree from piece to piece, from each production run to run. The Ceramic Tile Distributor Association (CTDA), in cooperation with tile manufacturers and distributors, has put together a helpful literature entitled the CTDA Color Shade Variation Guide. This guide rates ceramic tile on a four-point scale that ranges from V1 through V4.

Instituting the CTDA's color shade variation guidelines you will reduce customer complaints and sell the unique and individual beauty of each ceramic tile.

V1 Uniform Appearance

Differences among pieces from the same production run are minimal.

V2 Slight Variation

Clearly distinguishable texture and/or pattern within similar colors.

V3 Moderate Variation

While the colors present on a single piece of tile will be indicative of the colors to be expected on the other tiles, the amount of colors on each piece may vary significantly.

V4 Substantial Variation

Random color differences from tile to tile, so that one tile may have totally different colors from that on other tiles. Thus, the final installation will be unique.

SHADE VARIATION AND APPLICATIONS

	Residential	Light Commercial	Commercial
Floors	•	•	
Walls	•	•	
Countertops	•	•	
Backsplashes	•	•	

Water, oil, grease, or other fluids create slippery conditions. Floors with exposure to these conditions require extra caution in product selection and proper maintenance.

Care & Maintenance

Cometstone is a stain-resistant porcelain tile requiring no special care. Routine maintenance will keep your tile looking new for years to come. Just clean regularly with a low-alkaline detergent diluted with warm water. Rinse thoroughly and dry with a soft cloth to prevent water spots. Important! No waxes or sealers are recommended for this product.
